Add Player has a new look.

- Now you may add 1 or more players on the same team or different teams at a time.
- Now you may import up to 500 players at once.
- The default team is Open Player. Make sure you have added all teams to Team Management before clicking to Import or Add Players so teams are there when you click the drop down to label the data you import.

Importing Players

Due to the speed of your computer and Internet Connection if you are attaching POB's in this step import up to the limit of 26 players, then attach the POB to each player.

You may import a limit of 500 players at a time. Choose a team for each player, but **do not** upload POB's during this step. The registrar, manager or coach should upload each team's POB from the Player Details.
